Contents of volume 40

Volume 40, Nr. 1, SEPTEMBER 1999

Papers

1 *C.-J. Su, F. Lin and L. Ye*
A new collision detection method for CSG-represented objects in virtual manufacturing
15 *W.-L. Yang*
A distributed processing architecture for a remote simulation system in a multi-user environment
23 *J.A. Harding and B. Yu*
Information-centred enterprise design supported by a factory data model and data warehousing
37 *D.A. Grant*
Using existing modeling techniques for manufacturing process reengineering: a case study
51 *J.-M. Zhang, R.-M. Lin and M.-J.J. Wang*
The development of an automatic post-sawing inspection system using computer vision techniques
61 *M.S. Akturk and S. Onen*
Joint lot sizing and tool management in a CNC environment
77 *Announcement*

Volume 40, Nrs. 2–3, NOVEMBER 1999

Special issue: CIMOSA: CIM Open Systems Architecture Evolution and Applications in Enterprise Engineering and Integration

Editorial

79

Papers

83 *K. Kosanke, F. Vernadat and M. Zelm*
CIMOSA: enterprise engineering and integration
99 *G. Berio and F.B. Vernadat*
New developments in enterprise modelling using CIMOSA
115 *C. Reyneri*
Operational building blocks for business process modelling
125 *G. Salvato, I.J. Leontaritis, P. Winstone, M. Zelm, D. Rivers-Moore and D. Salvato*
Presentation and exchange of business models with CIMOSA-XML
141 *K. Kosanke and M. Zelm*
CIMOSA modelling processes

155 *A. Ortiz, F. Lario and L. Ros*
Enterprise Integration—Business Processes Integrated Management: a proposal for a methodology to develop Enterprise Integration Programs
173 *K.-H. Sternemann and M. Zelm*
Context sensitive provision and visualisation of enterprise information with a hypermedia based system
185 *G. Segarra*
The advanced information technology innovation roadmap
197 *M. Dickerhof, M.M. Didic and U. Mampel*
Workflow and CIMOSA—background and case study
207 *A. Ortiz, F. Lario, L. Ros and M. Hawa*
Building a production planning process with an approach based on CIMOSA and workflow management systems
221 *I.L. Kotsiopoulos*
Railway operating procedures: regulating a safety-critical enterprise
231 *R. Gaches and M. Chaumont*
Model-based analysis of the health, safety and environment domain in the process industry
243 *R.P. Monfared and R.H. Weston*
An application of CIMOSA concepts in the development of change capable manufacturing cells
259 *K.-H. Sternemann, M.M. Didic and H. Hofer*
Simulation of a torque converter production considering quality attributes
267 *M.H. Levi and M.P. Klapsis*
FirstSTEP process modeler — a CIMOSA-compliant modeling tool
279 *G. Bruno and M. Torchiano*
Making CIMOSA operational: the experience with the PrimeObjects tool
293 *D. Solte*
The OPAL platform—a CIMOSA compliant execution environment
305 *D. Shorter*
CEN standardization activities related to CIMOSA
311 *K. Kosanke and J.G. Nell*
Standardisation in ISO for enterprise engineering and integration
321 *R.H. Weston*
Reconfigurable, component-based systems and the role of enterprise engineering concepts
275 Author index to volume 40
277 Subject index to volume 40
279 Contents of volume 40

Contents continued

M. Dickerhof, M.M. Didic and U. Mampel
Workflow and CIMOSA—background and case study 197

A. Ortiz, F. Lario, L. Ros and M. Hawa
Building a production planning process with an approach based on CIMOSA and workflow management systems 207

I.L. Kotsiopoulos
Railway operating procedures: regulating a safety-critical enterprise 221

R. Gaches and M. Chaumont
Model-based analysis of the health, safety and environment domain in the process industry 231

R.P. Monfared and R.H. Weston
An application of CIMOSA concepts in the development of change capable manufacturing cells 243

K.-H. Sternemann, M.M. Didic and H. Hofer
Simulation of a torque converter production considering quality attributes 259

M.H. Levi and M.P. Klapsis
FirstSTEP process modeler — a CIMOSA-compliant modeling tool 267

G. Bruno and M. Torchiano
Making CIMOSA operational: the experience with the PrimeObjects tool 279

D. Solte
The OPAL platform—a CIMOSA compliant execution environment 293

D. Shorter
CEN standardization activities related to CIMOSA 305

K. Kosanke and J.G. Nell
Standardisation in ISO for enterprise engineering and integration 311

R.H. Weston
Reconfigurable, component-based systems and the role of enterprise engineering concepts 321
